ALSO LOOK OUT FOR OUR UPCOMING: *CLINICAL DISCUSSION SERIES*

Our *Clinical Discussion Series* is an exciting new concept; an 'on-demand' series of 90-minute case discussions with some of the most well-known and respected clinicians in the field of Harmful Sexual Behaviour assessment and treatment. Series presenters discuss with your host Dr Russ Pratt one of their own cases from their own particular clinical perspective with a focus on assessment, treatment, or both. Each case presentation is accompanied by comprehensive notes and references such that participants can follow-up on all aspects of the case practice presented. The Clinical Discussion Series can be purchased individually, or as a series, and are pre-recorded. They can be watched at the time that best suits you. With a view to access, affordability, and skills-enhancement, the *Clinical Discussion Series* will not disappoint!
Watch out for the first in the series of six. It will be available in early-September 2021
