Also issues often (and sometimes not so often) seen in assessment and case practice. **Group One** caters for practitioners closer to the 'starting-out' phase of their career, aimed at those in the first 2 to 3 years of their careers in Sexually Harmful Behaviour Treatment. **Group Two** is for practitioners with more experience - anywhere from 3-plus years to 20-plus years-experience. **Six** 90-minute fortnightly sessions. **Maximum** of **6** participants guarantees the space and the time for each participant to contribute in any way they wish (discussing, presenting case components or simply listening).

Russ Pratt facilitates 4 sessions in each group,

Kevin Creeden and Jim Worling facilitate 1 session each.

This is a unique opportunity to engage with acknowledged experts in the field. If you are assessing and/or treating HSB issues, its most likely you are using, or have used, assessment tools produced by Jim, and using treatment techniques either developed or enhanced by Kevin.
